Our Approach

Vision Hope International (VHI) is an independent German-based non-for-profit humanitarian organization engaged in the Middle East and North Africa (MENA Region). We work in some of the most difficult areas of the Middle East and North Africa (MENA region), particularly among

marginalized communities that have experienced systemic oppression, exploitation, and other forms of violence. These communities include vulnerable populations, such as refugees, internally displaced people (IDPs), and disenfranchised youth. We develop our projects in partnership with local

organizations already working in the communities, and strengthening those organizations remains at the center of its efforts. Local organizations benefit most and serve their communities best when Vision Hope allows them the opportunity to be responsible for the successful execution of the projects.
