VISIONHOPE

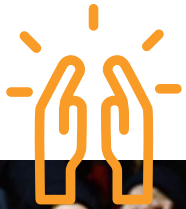

Where Indifference Ends, Life Begins.

WHO WE ARE

Vision Hope International is a humanitarian and development organization that partners with local communities and authorities in the Middle East and North Africa (MENA region) to transform societies experiencing the greatest need.

We aim to alleviate extreme poverty by providing food security for families, protection and education for orphans, community integration for refugees and persons with disabilities, and sustainable development that promotes human flourishing.

„Doing nothing for others is the undoing of ourselves.“

WHAT WE DO

We meet the challenges associated with war, gender-based violence, and systemic poverty by embracing local cultures and traditions, as long as they do not conflict with our values, and by implementing sustainable development that outlives our projects.

We empower local people to become leaders, so that they can be part of the solution to the challenges they and their communities face. Our projects and programs contribute to the achievement of the Sustainable Development Goals (SDG).

„Charity is a simple method to prove kindness.“

OUR APPROACH

We are committed to respond to humanitarian crises by providing solutions that integrate relief, rehabilitation and development.

Following our vision and mission, we aim to initiate partnerships with local organisations on the ground and involve the communities at all stages of the project cycle. Through their participation, we are able to create ownership and durable solutions for the most urgent needs.

While doing so, we are adhering to the humanitarian principles and international standards.

„Charity is injurious unless it helps the recipient to become independent of it.“

OUR WORK FOCUS

We provide emergency assistance and carry out development projects in sectors such as Food Security and Agriculture, Nutrition, Education, Protection and Re-Integration of Refugees.

GEOGRAPHICAL FOCUS OF OUR WORK
