Important information about our website //

Projects are continuing as normal

March 13, 2026

Dear supporters,

You may have noticed that our website has been down for some time. This was due to a malware attack on our web pages, which is why the site was taken offline as a precaution.

Over the past few weeks, we have been working intensively to restore the website—unfortunately, this has proven to be much more difficult than we had hoped, and ultimately, we now have to completely rebuild the website from scratch. It will take some time before everything is available again as usual. We

therefore ask for your patience.

Until then, you can find the latest news and results from our projects as usual on [Instagram](#), [Facebook](#), [LinkedIn](#), and [YouTube](#)—such as the [video](#) below in this email, which vividly shows the changes in an IDP camp in Yemen after we were able to provide access to clean water for the residents there in collaboration with World Vision and funding from Aktion Deutschland Hilft.

Our work in the project countries continues as usual, of course, despite the website issues. We are very much looking forward to giving you insights into our current and new projects on our new homepage soon.

Among other initiatives, a new project was recently launched in Lebanon to strengthen local mental health care structures. Using a peer-to-peer approach, it promotes psychosocial support and trauma management, particularly among young people.

If you would like to make a donation, you can do so via our [Betterplace page](#)—which you can currently access by clicking on our URL vision-hope.org—via [PayPal](#), or using our bank account details:

Vision Hope International e.V.
Sozialbank

If you have any questions, you can reach us at spenderservice@vision-hope.net Monday through Friday.

Thank you for standing by our side and making this work possible.

We greatly appreciate your support and trust.

Warm wishes,
Your Vision Hope Team

so my children and I had to search for it from one place to another .

Take a look at how Umm Mazen's life has changed in the Al Wa'ra camp in Al Khokha since the water supply system was renovated and expanded.
